

## **Local Primary Care for non TRICARE Patients**

---

**\*\*\* It is highly recommended that you establish care with a Primary Care Manager on the economy. This will ensure primary care access and continuity of care for you and your family while living in the KMC area. According to DoD and TRICARE policy, once the healthcare needs of enrolled beneficiaries and TRICARE Access to Care standards are met, the LRMC Commander may offer medical care to personnel who are not TRICARE eligible (e.g. GS, AAFES, DoDDS civilian employees, etc.). LRMC may only offer Space-A healthcare when provider and clinical capacity is available.**

**Below are listings of some English speaking local practices that you can contact in order to establish care and/or conduct a follow-up from care received at LRMC:**
