MEMORANDUM FOR Service Members and Civilian Components within the United States Army Garrison Rheinland-Pfalz (USAG R-P) Footprint

SUBJECT: USAG R-P Command Policy Letter # 11, Environmental Management System (EMS)

1. References:

- a. AR 200-1, Environmental Protection and Enhancement, 13 Dec 07.
- b. EO 13693, Planning for Federal Sustainability in the Next Decade, 25 Mar 15.
- c. International Organization for Standardization (ISO) 14001, Environmental Management System.

2. The USAG R-P is committed to protecting the environment to support the mission in accordance with ISO 14001. Each individual, garrison wide, must remain dedicated to continually improving processes in an effort to conserve both the environment and government resources by:

- a. complying with the Final Governing Standards for Germany and all applicable legal requirements,
- b. promoting sustainability of natural and man-made resources,
- c. implementing pollution prevention training and opportunities,
- d. incorporating environmental requirements into all programs and missions,
- e. continuously reviewing activities and services to identify significant aspects for continual improvement;
- f. promoting hazardous waste and material minimization;
- g. conserving energy and water;
- h. supporting the installation wide EMS; and
- i. effectively communicating this environmental policy to all personnel within the footprint of the organization.
